Shokworks · *product designer* · miami, fl / remote

jul 2025-present

Led product design across seven healthcare, aviation, fintech, and AI products with a 14-person cross-functional team. Redesigned a legacy aviation safety platform, reducing key workflow steps by 50% and delivering production-ready systems.

G-Network · *ui/ux designer & consultant* · la guaira, venezuela

jan 2025-present

Redesigned a white-label telecom platform across 16 operational modules for customer service, finance, ticketing, and network operations. Built a 300-component system for web and mobile, improving consistency and developer handoff.

Freelance · *independent product designer* · remote, worldwide

jul 2019-present

Delivered 30+ product engagements across 10 industries for more than 50 clients and stakeholders. Designed 20 products from the ground up and used AI-assisted prototyping to turn early concepts into production-ready experiences.

Thumbnail Grabber · *youtube media tool* · web

product designer & builder, 2026

Built a YouTube media tool that extracts maximum-resolution thumbnails in seconds, helping creators accelerate visual research, compare references, document inspiration, and move faster from content discovery to creative execution.

Fomoless · *ai-powered news* · web

product designer & builder, 2026

Built an AI-powered news product that curates essential updates across seven categories, reduces information overload, and helps users follow important developments through a calm, focused, and distraction-free reading experience.

... 30+ products, client work, and more
